DANCEWEAR
CATALOGUE
2024 – 2025

WELCOME TO OUR 2024 - 2025 DANCEWEAR CATALOGUE!

Here at International Dance Supplies we understand the importance of providing your students with comfortable yet stylish dancewear at affordable prices. From skirts to shoes, association uniforms to activewear, this comprehensive dancewear catalogue is designed to be your one-stop shop for all your school's needs.

Our latest collection includes some exciting additions:

- *New ballet leotards, skirts and tutus*
- *Additional unisex styles*
- *Royal Blue Acro range*
- *Sleek fashion leotards, with mesh and zip detailing*

The 1st Position range covers a variety of dance disciplines, and continues to use high-performance fabrics for optimal comfort and flexibility. We also stock dancewear from leading brands such as Capezio and So Danca, as well as approved association uniforms such as RAD.

To assist you in selecting your dancewear we have included a sizing chart, and offer fast dispatch with 7-day shipping and hassle free returns.

As always, IDS appreciate your dedication to fostering a love for dance in your students and thank you for your continued support and custom. Wishing you a prosperous new term and beyond!

BALLET SHOES

We have a wide range of ballet shoe styles which have been carefully designed to meet the individual needs of every dancer, based on their level of skill, foot size and preferred material.

We offer an extensive range of full and split sole styles for Ballet.

FULL SOLE BALLET SHOES

Full Sole Ballet Shoes are recommended for children and beginners as they provide arch support with their continuous sole. The sole is usually made of leather, canvas or suede. This style is good for building the dancer's strength and muscle.

SPLIT SOLE BALLET SHOES

This style of ballet shoe has a split sole between the ball and heel of the foot, which makes the shoe more flexible and emphasises the arch, point and line of the dancer's foot. This style does offer less support compared to a full sole ballet shoe; therefore we would advise split sole ballet shoes for more experienced dancers.

POINTE SHOES

Pointe shoes are only recommended for dancers who meet a certain level of technical ability. The design is different to soft ballet shoes and requires a high level of strength to utilise the box and shank to stand en pointe.

MEASURING TIPS

We would recommend using a measuring tape or ruler to ensure you get accurate measurements of the dancer's feet. Measure the width at the widest part of the dancer's foot as well as the full length from the biggest toe to the end of the heel. To ensure accuracy it is advised that the dancer wears ballet tights or socks and their feet are in a relaxed position.

TERMS & CONDITIONS

For full terms and conditions visit idsaustralia.com/terms-and-conditions

Terms & Conditions are correct at the time of printing but may be subject to change.

IDS is the trading style of International Dance Supplies Ltd a company registered in England with registered number 05452207.

Our trading address and registered office is;
Harlequin House,
Forde Court,
Forde Road,
Newton Abbot,
Devon, United Kingdom
TQ12 4BT

Acceptance of Terms & Conditions

When you submit your order to IDS you are confirming that you are purchasing as a business not as a consumer and that you accept the content of our terms and conditions. All orders placed by you are subject to acceptance by IDS and product availability.

SIZING GUIDE

To give our customers the widest selection of Dancewear, IDS use an extensive variety of fabrics and materials. Each can be as different and unique as the dancer who is going to wear it. With this in mind we suggest you use this size guide as a general fitting guide only.

1 Girth

Measure from the middle of one shoulder, down through the crotch and back up to the same shoulder.

2 Chest

Measure under the arms and around the fullest part of the bust and across the back. Make sure you take the measurements on the exhale and not the inhale so that the rib cage is relaxed.

3 Waist

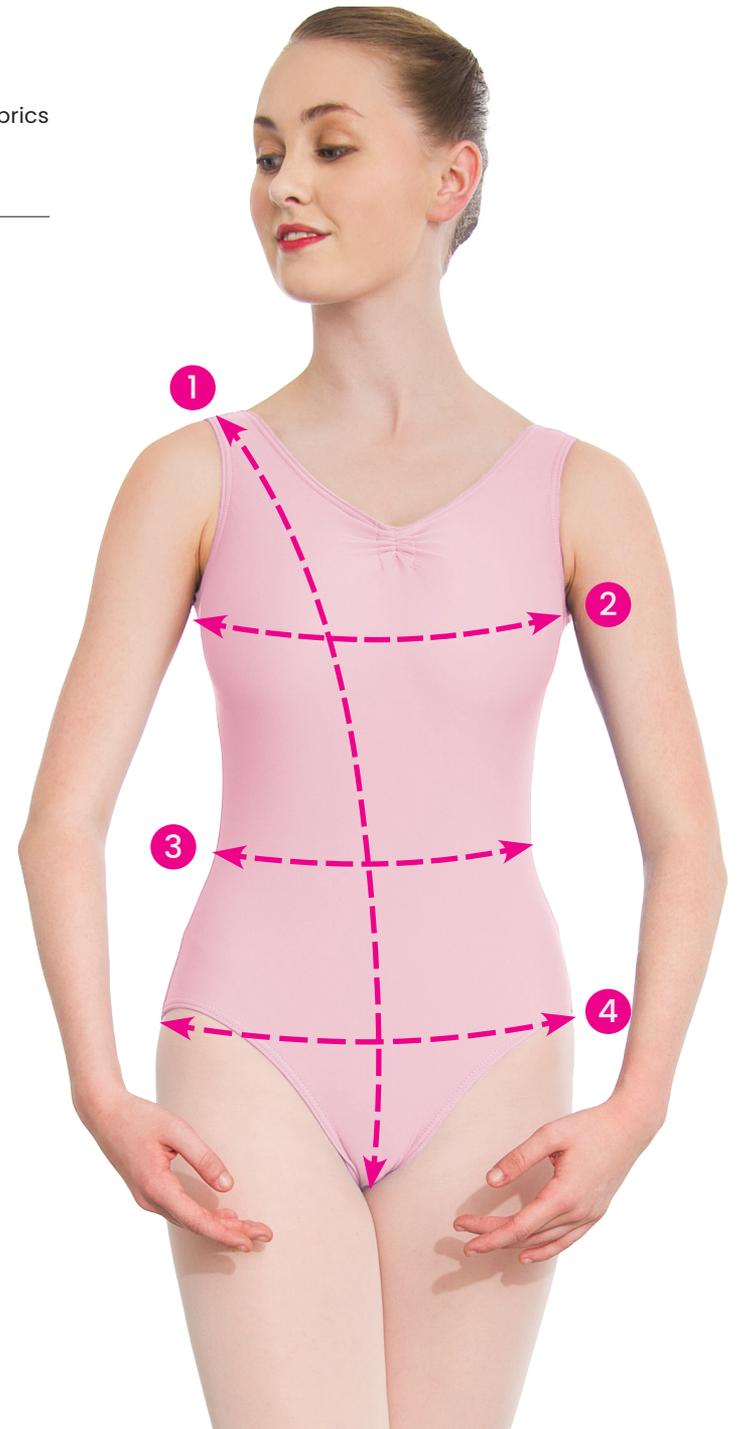

Ask the student to bend to one side - where a natural crease forms is where the natural waist line is. When they stand up straight measure around the front and back of the waist.

4 Hips

With feet directly under the hips, measure around the widest part of the hips.

Measuring Tips

- Make sure your student is standing straight, looking forward and has a natural posture. Their feet should be directly under their hips with their feet parallel but not touching.
- For the most accurate measurements ask your student to wear a leotard.
- Ensure that the student breathes in and out naturally to avoid the tummy suck and assure a comfortable fit.
- Before you start taking measurements ensure that the flexible measuring tape is lying flat. When taking measurements make sure the measuring tape isn't too tight or too slack.
- The inseam should be where the leotard leg line meets the tights or the top of the leg.
- Measuring girth is the most important measurement. If a student is in between sizes, allow girth to be the guiding measurement to make your judgement.
