United in Movement

Welcome to the IDS Dancewear Catalogue!

At International Dance Supplies, we know how important it is for your students to feel confident in dancewear that is both stylish and practical, without stretching your budget. From skirts to shoes, association uniforms to activewear, our downloadable digital dancewear catalogue is designed to be your one-stop shop, accessible anytime and anywhere.

Our 1st Position collection brings together a wide range of styles across every discipline, crafted from high performance fabrics for comfort, flexibility, and durability. Alongside this, you'll find trusted names like Bloch and Capezio, plus approved association uniforms from RAD and IDTA.

Now shipping direct from our new European Headquarters and Warehouse, you can shop like Brexit never happened - with no customs paperwork, charges or delays. We offer same day dispatch and hassle free returns, so you can plan with confidence.

Thank you for partnering with IDS and helping shape the next generation of dancers. We're proud to stand beside you and wish you every success in the year ahead.

Ballet Shoes

We have a wide range of ballet shoe styles which have been carefully designed to meet the individual needs of every dancer, based on their level of skill, foot size and preferred material. We offer an extensive range of full and split sole styles for Ballet.

Full Sole Ballet Shoes

Full Sole Ballet Shoes are recommended for children and beginners as they provide arch support with their continuous sole. The sole is usually made of leather, canvas or suede. This style is good for building the dancer's strength and muscle.

Split Sole Ballet Shoes

This style of ballet shoe has a split sole between the ball and heel of the foot, which makes the shoe more flexible and emphasises the arch, point and line of the dancer's foot. This style does offer less support compared to a full sole ballet shoe; therefore we would advise split sole ballet shoes for more experienced dancers.

Pointe Shoes

Pointe shoes are only recommended for dancers who meet a certain level of technical ability. The design is different to soft ballet shoes and requires a high level of strength to utilise the box and shank to stand en pointe.

Measuring Tips

We would recommend using a measuring tape or ruler to ensure you get accurate measurements of the dancer's feet. Measure the width at the widest part of the dancer's foot as well as the full length from the biggest toe to the end of the heel. To ensure accuracy it is advised that the dancer wears ballet tights or socks and their feet are in a relaxed position.
